<p style="text-align: center;">Why do you want to serve on the ACCU Board of Directors?</p> As a school administrator, I have enjoyed watching the inner workings of school board meetings. It would be interesting to me to see how ACCU operates. I have been impressed with ACCU ever since we became members. The processes are efficient, and in many ways, the employees seem to go above and beyond. It is such a successful organization, and it's employees are all so positive about their careers. In some small way, I would like to be a part of that.	
<p style="text-align: center;">Additional Comments</p> We love this area, and want to see it continue to prosper. If I can be a part of ACCU in any sort of positive role, it would be an honor.
